## Spencerian Penmanship

**\*Spencerian Penmanship**

Spencerian Penmanship can be used as a handwriting course, however, the script used in this text is a "traditional" script. Spencerian Penmanship is better suited as an art course such as Calligraphy or as additional handwriting practice.

## Higher Level Mathematics

**\*\*Ray's New Higher Arithmetic** does not include Algebra or Geometry; however, the arithmetic problems require upper level math skills and can be used to apply Algebra and Geometry skills learned elsewhere, and to supplement the lack of story problems in most upper level math texts.
